April 27, 1965

Gentlemen:

Just for the record, here is another
"book" report from one of the little
people in our country.

My daughter saw an object hovering over
the trees in our Frick woods, about 1,000
feet from the spot where she and her friend
were playing. It was dusk, right before
our dinner time, and it had ended within
the next two weeks. The object was the
flat round kind, red at the bottom, yellow
in the middle and black at the top. It
had two eyes (.) and one on the top,
also. This is according to her description.

I am not going into too much more detail, because I understand you people never answer these reports, nor recognize them, except to deny their authenticity. However, just for the record, I am reporting it, and I will be mighty surprised if I hear even a word recognition from this agency (of the people?).

I have, of course, reported it to HICAP and, for what it is worth, they and you have the information.

Incidentally, my daughter has had sleepless nights because of this and has expressed fear of it and has repeated her story, without contradiction, unprompted, two other times since the original breathless report she gave us that night. She is 6 years old and it can easily be said it is all a figment of her imagination.

Sincerely,

Mrs. [REDACTED]

Mrs Hunt/SAFOICC/72842/29 Jun 65

Dear Mr. [REDACTED]:

This is in reply to your letter in which you forwarded two photographs for analysis.

We are unable to have your photographs analysed without the original negatives. Should you desire to submit the negative to the Air Force, you will be advised of the results of the analysis.

Sincerely,

1 Atch
Photographs (2)

Dear Sir

Here is a couple of pictures that
was taken in Western Montana about two
months ago when these pictures was
taken there wasn't any thing visible
to the eye but mountains and forest
but if you check them there are
strange lights and vapor trails
to the right of center of these
pictures which I think should
be checked to see what they
might be when finished with.
Please return to

Lanora Pa
